FREE SCHEDULE!

2022 SAE Australia Fee Schedule

The SAE academic year consists of three trimesters with an intake each trimester and one census date each trimester. Included in this booklet is fee information for higher education courses. Courses may not be available at all campuses; please refer to www.sae.edu.au for campuses offerings for each course.

Financial penalties will apply to students who withdraw from their course after the trimester census date.

Trimester	Commencement	Census	Completion
Trimester 1	07 February 2022	25 February 2022	06 May 2022
Trimester 2	30 May 2022	17 June 2022	26 August 2022
Trimester 3	19 September 2022	07 October 2022	16 December 2022

Course Contents

Undergraduate Courses For students who commenced study on or after trimester 2 2021	5
Undergraduate Courses For students who commenced study before trimester 2 2021	37
Postgraduate Courses	71
Vet Courses For students who commenced before trimester 1 2022	79
Vet Courses For students who commenced after trimester 1 2022	89

A photograph of two young women in a bright, modern office or library setting. One woman with long dark hair is seated at a desk, focused on a computer monitor. The other woman, with long red hair, glasses, and a grey flat cap, stands behind her, pointing at the screen. The background shows a large window with a view of a city skyline at dusk or night. The overall mood is collaborative and professional.

UNDERGRADUATE COURSES.

For students who commenced study on or after / trimester 2 2021

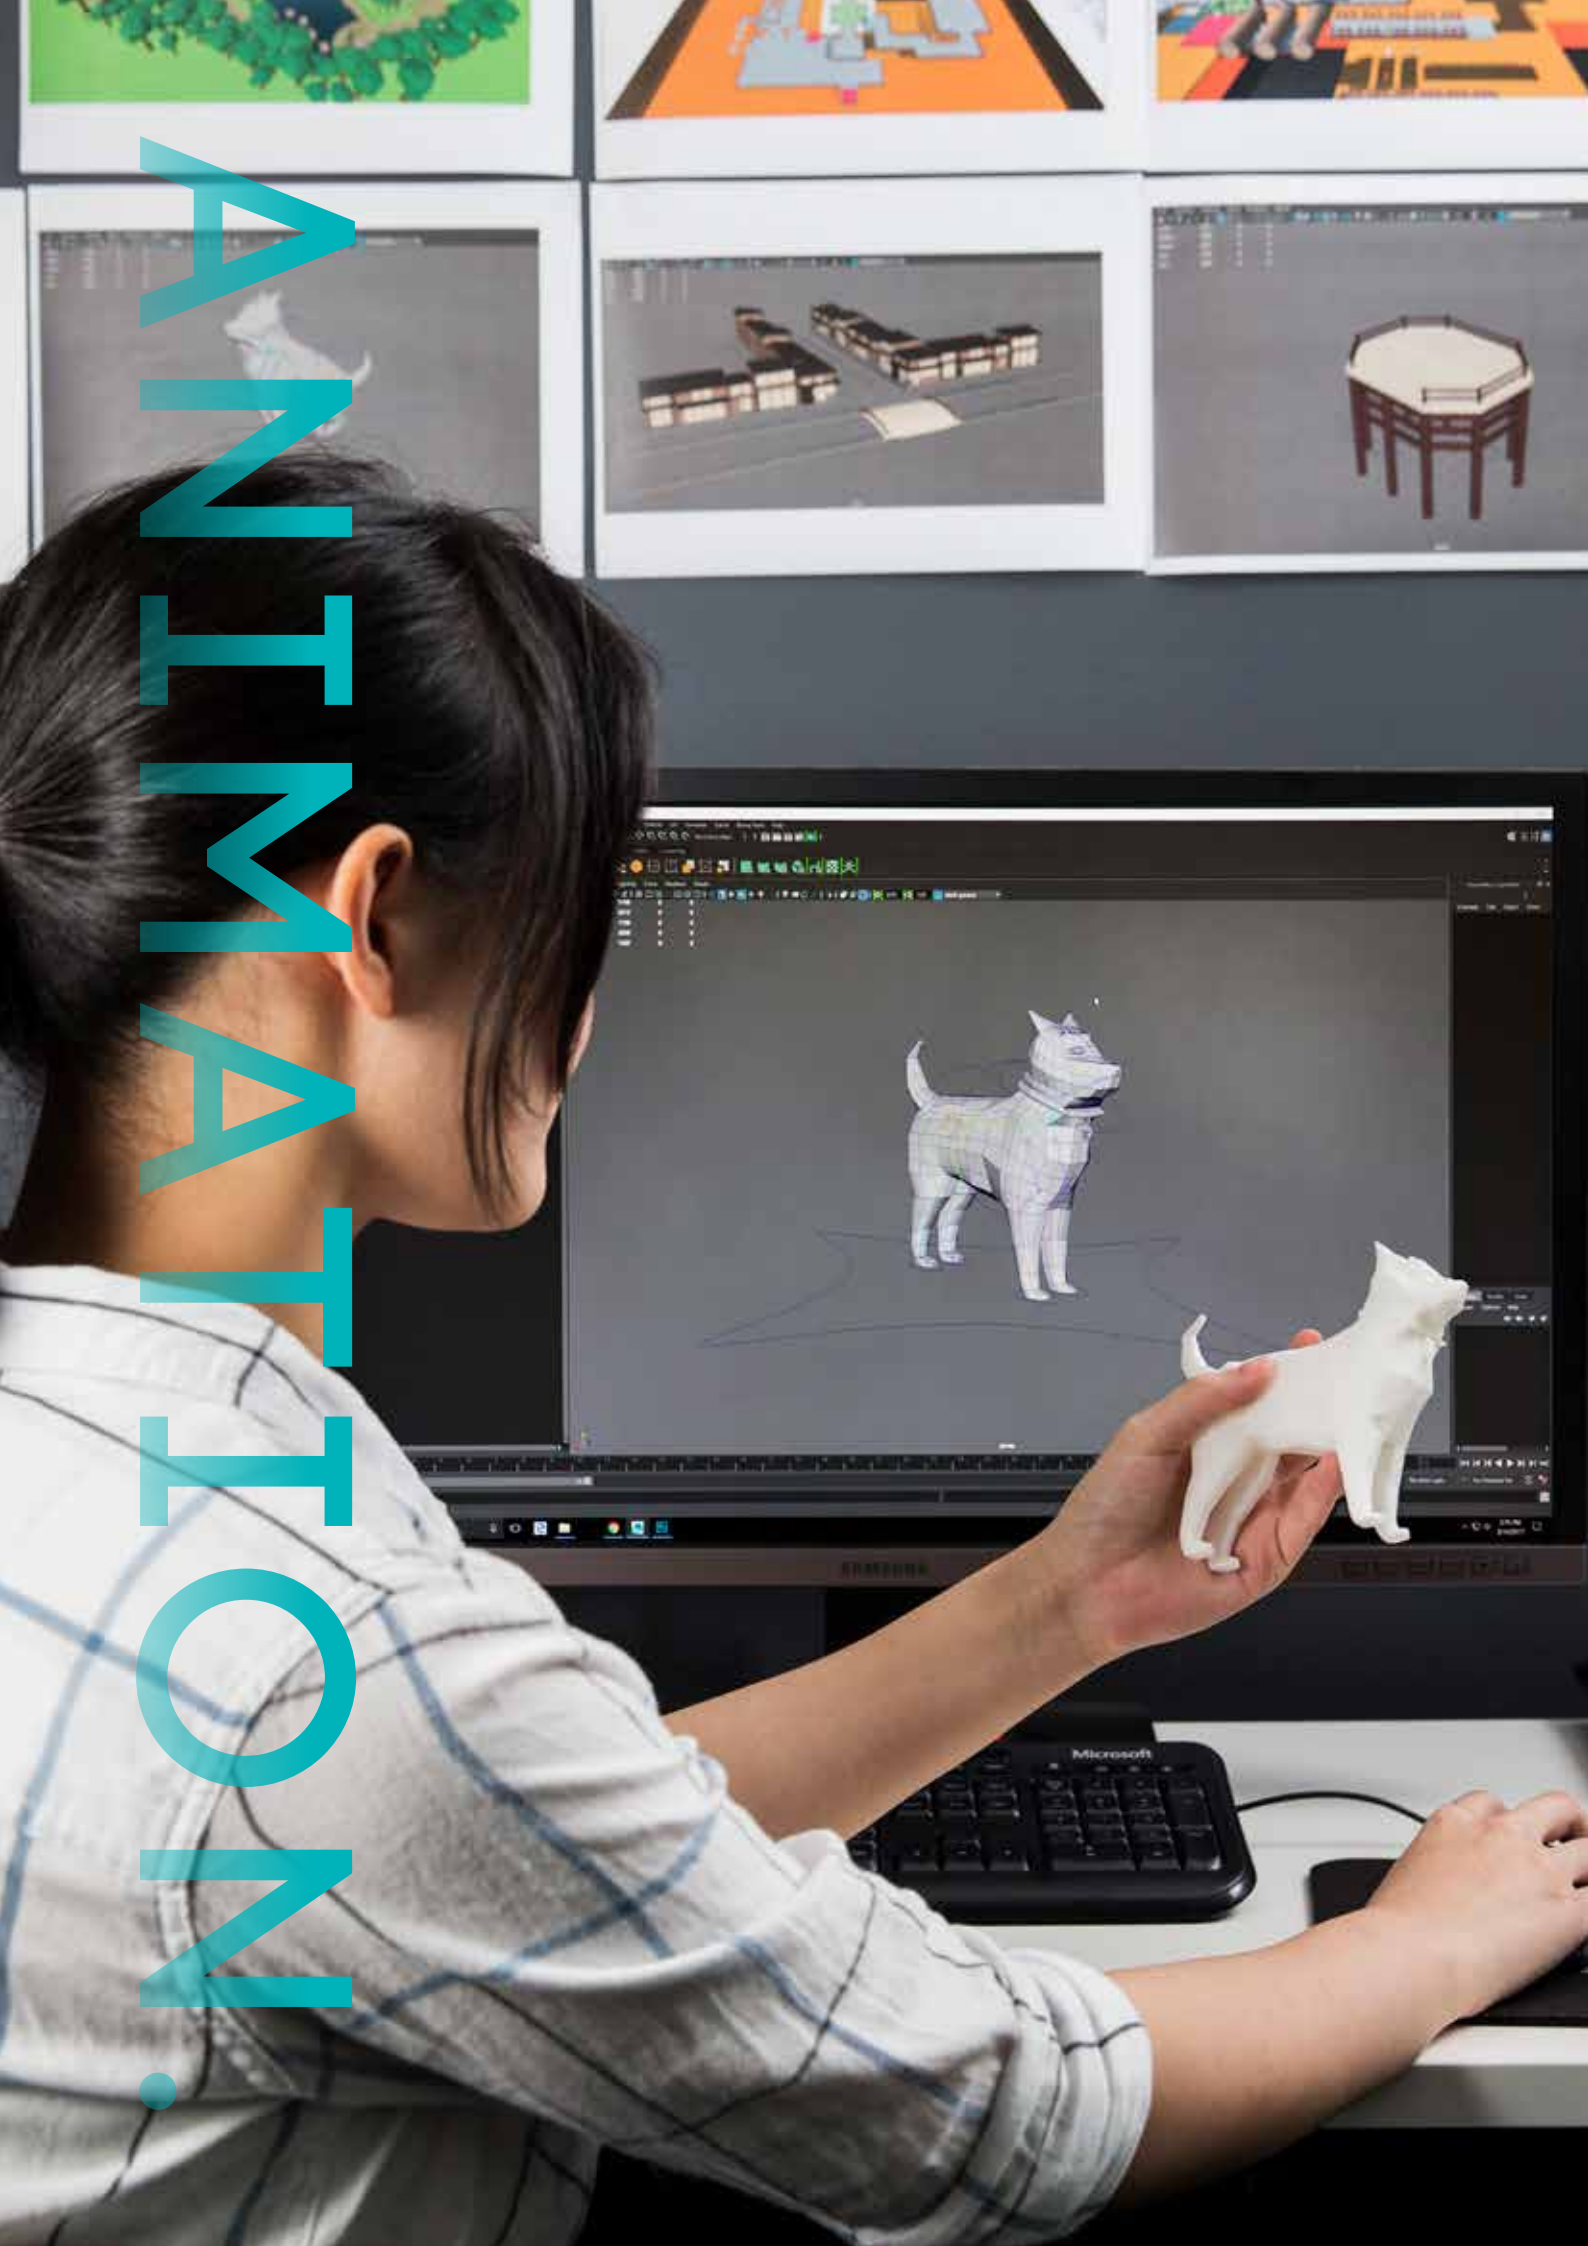

Undergraduate Courses

For students who commenced study on or after / trimester 2 2021

Contents

Diploma of 3D Animation Production	7
Associate Degree of Animation	8
Bachelor of Animation	9
Diploma of Audio Production	11
Associate Degree Of Audio	12
Bachelor of Audio	13
Diploma of Graphic Design	15
Associate Degree Of Design and Visual Communication	16
Bachelor of Design and Visual Communication	17
Diploma of Film	19
Associate Degree Of Film	20
Bachelor of Film (Production)	21
Bachelor of Film (Post-Production)	21
Diploma of Augmented and Virtual Reality	23
Diploma of Game Development	24
Associate Degree of Games Development	25
Bachelor of Games Development (Games Design)	26
Bachelor of Games Development (Games Programming)	26
Diploma of Music Production	29
Associate Degree of Songwriting and Music Production	30
Bachelor of Songwriting And Music Production	31
Diploma of Creative Industries	33
Discipline Units and Electives for the Diploma of Creative Industries	34
Supplementary Electives for Bachelor Courses	35

ANIMATION

Animation is pure imagination. Few industries allow you to create what has never been seen before, which is cool. But it's also a profession where technical expertise and application is as important as raw talent, and this is where we come in. Our courses are all about building your character and credentials by giving you hands-on experience in 3D modelling, rigging, design, textures, lighting, rendering and compositing. Throughout your course, you'll explore each aspect of animation in detail with the guidance of expert teachers. You'll be working on cutting-edge software like Autodesk Maya, Autodesk 3D MAX, ToonBoom Harmony, Substance Painter, Unreal Engine 4, Unity, SideFX Houdini, Foundry NukeX, Pixologic ZBrush and Adobe Creative Suite to help bring your ideas to life, as well as learn collaborative and project management skills – all within a world-class, studio-based learning environment.

COMMENCED ON OR AFTER TRIMESTER 2 2021

Diploma of 3D Animation Production

Qualification	Diploma of 3D Animation Production
Specialisation Course Code	NT5AN
Duration	2 trimesters minimum
Indicative Total Course Fees*	Domestic: \$23,708 International: \$28,040
Number of Units to Complete	7
Total Credit Points	80
CRICOS Code	102826J 094747A
Sector	Higher Education (HE)
Intakes Offered	07 February 2022 30 May 2022 19 September 2022
Delivery Mode	on campus
Payment Options	Tuition fee payment options for Domestic students include: Study Now – Pay Later (FEE-HELP) or Trimester Instalments Tuition fee payment options for International students include: Trimester Instalments

Unit Code	Unit Name	Trimester	Credit Points	EFTSL**	Domestic Student Unit Fee	International Student Unit Fee
ANM110	Animation Studies and Practice	1	10	0.125	\$3,453.00	\$4,085.00
ANI170	Drawing for Animation	1	10	0.125	\$3,453.00	\$4,085.00
ANI171	Foundations of Computer Graphics	1	10	0.125	\$3,453.00	\$4,085.00
ANI172	Introduction to Animation	1	10	0.125	\$3,453.00	\$4,085.00
ANI174	Applied Animation Techniques	2	10	0.125	\$2,474.00	\$2,925.00
ANI181	Animation Studio 1	2	20	0.25	\$4,948.00	\$5,850.00
CIM151	Contemporary Industrial Practices	2	10	0.125	\$2,474.00	\$2,925.00

*The Indicative Total Course Fee reflects that students are charged fees on a per unit basis and the fee for a unit may increase from time to time, the indicative Total Course Fee does not take into account personal circumstances such as RPL, credit, repeats or changed electives.

**EFTSL means Equivalent Full Time Study Load. An EFTSL value for a unit of study represents the study load for that unit. A study load for a unit of study is expressed as a proportion of the standard study load for one full-time year of the course of study of which the unit forms part, as determined by SAE. The aggregated EFTSL values for units of study undertaken by a full-time student doing a standard study load for one year of a course of study normally add up to 1.0. A standard study load means the student studies at a pace that enables the student to complete the course in the standard number of years on a full-time basis. Students may apply to undertake specific units from other SAE degree programs to fulfil the elective requirements. Additional electives can be found in page 13 of this Fee Schedule. Please note the price of elective units vary. All unit prices are detailed in this FEE Schedule. Not all programs are available at all locations, please check the website for more information.

Associate Degree of Animation

Qualification	Associate Degree of Animation
Specialisation Course Code	NT6V4

AV C D T O

Our Audio courses are an immersive, hands-on experience that covers every possible level of studio, post- and live production, using cutting-edge equipment like Neve, SSL, and Audient consoles, while gaining proficiencies on software including Pro Tools, Logic Pro X, and Ableton Live. Your growth and development will be assessed through the completion of industry-based projects, not theoretically based essays, enabling you to build up a body of work and portfolio to share with potential employers. In preparation for an industry that commands agility and adaptability, you'll cut your creative teeth on projects initially in partnership with your course peers. As your skills develop and you work on more dynamic projects, you'll apply your capabilities to cross-discipline projects. Ultimately, this is all about a qualification that will expand your career. There is work placement as part of your course, to provide practical experience and help build your network. We'll also equip you with employability skills, giving you professional strategies in communication and self-promotion.

Our Design courses are much more than teaching visual aesthetics, but rather, providing you with a detailed understanding and hands-on experience of the role of design in the contemporary world. You'll explore branding and identity design, online and print design, digital image-making and user-centred design. You'll create targeted designs with a particular audience in mind, and develop the skills to come up with creative solutions to complex problems in almost any context.

At SAE you won't find yourself in a lecture with 300 people or even in a traditional lecture at all. You'll be in a studio environment with the latest Adobe Creative Suite. Your growth and development will be assessed holistically based on your engagement with and completion of industry style projects and you'll learn to apply a strategic, entrepreneurial eye to your clients' needs. You will build up a diverse portfolio of work to share with potential employers and clients. In preparation for an industry that demands agility and adaptability, you'll cut your creative teeth on projects in partnership with your course peers. As your skills develop you will work on more future-focused and collaborative projects, applying your capabilities to cross-disciplinary projects. We'll also equip you with employability skills, giving you professional strategies in communication and self-promotion.

*The Indicative Total Course Fee reflects that students are charged fees on a per unit basis and the fee for a unit may increase from time to time, the indicative Total Course Fee does not take into account personal circumstances such as RPL, credit, repeats or changed electives.

**EFTSL means Equivalent Full Time Study Load. An EFTSL value for a unit of study represents the study load for that unit. A study load for a unit of study is expressed as a proportion of the standard study load for one full-time year of the course of study of which the unit forms part, as determined by SAE. The aggregated EFTSL values for units of study undertaken by a full-time student doing a standard study load for one year of a course of study normally add up to 1.0. A standard study load means the student studies at a pace that enables the student to complete the course in the standard number of years on a full-time basis. Students may apply to undertake specific units from other SAE degree programs to fulfil the elective requirements. Additional electives can be found in page 13 of this Fee Schedule. Please note the price of elective units vary. All unit prices are detailed in this FEE Schedule. Not all programs are available at all locations, please check the website for more information.

Our Film courses provide the practical experience and technical knowledge needed to launch yourself into the world of motion pictures. Starting with the fundamentals and rolling through to the finer, more complex aspects of cinematography, you'll acquire a very particular set of skills. Choose to specialise in either Production where the focus is on directing and producing or Post-Production where you'll refine your skills in editing, composing and colour grading. You'll be in a studio environment using industry-standard equipment like 4K Red, Sony and Canon cameras, DaVinci Resolve colour grading software, Adobe Premiere Pro, and Adobe Creative Cloud. Your growth and development will be assessed through the completion of industry-based projects, not theoretical based essays, enabling you to build up a body of work and portfolio to share with potential employers. In preparation for an industry that commands agility and adaptability, you'll cut your creative teeth on projects initially in partnership with your course peers. As your skills develop and you work on more dynamic projects, you'll apply your capabilities to cross-discipline projects. At SAE, you'll see your ideas come to life as you prepare for a big future in front of you behind the lens.

GAME ZONE

LOADING

Games have the potential to change the world, and we can give you the skills to help change yours. Our bachelor starts at the base level and builds your expertise in programming and design. At SAE you won't find yourself in a lecture with 300 people or even in a traditional lecture at all. You'll be in a studio environment using industry-standard software like Unreal Engine 4, Unity3D, Autodesk 3D Studio Max and Maya, developing for technologies such as Oculus Rift, HTC Vive, Android, and iOS. You'll also learn to speak how the professionals do with expert lecturers guiding you in languages such as C++ and C#. Your growth and development will be assessed through the completion of industry-based projects, not theoretical based essays. This will ultimately help you build up a body of work and portfolio to share with potential employers or first client. In preparation for an industry that commands agility and adaptability, you'll cut your creative teeth on projects initially in partnership with your course peers. As your skills develop and you work on more dynamic projects, you'll apply your capabilities to cross-discipline projects. Your epic adventure in gaming starts here.

*The Indicative Total Course Fee reflects that students are charged fees on a per unit basis and the fee for a unit may increase from time to time, the indicative Total Course Fee does not take into account personal circumstances such as RPL, credit, repeats or changed electives.

**EFTSL means Equivalent Full Time Study Load. An EFTSL value for a unit of study represents the study load for that unit. A study load for a unit of study is expressed as a proportion of the standard study load for one full-time year of the course of study of which the unit forms part, as determined by SAE. The aggregated EFTSL values for units of study undertaken by a full-time student doing a standard study load for one year of a course of study normally add up to 1.0. A standard study load means the student studies at a pace that enables the student to complete the course in the standard number of years on a full-time basis. Students may apply to undertake specific units from other SAE degree programs to fulfil the elective requirements. Additional electives can be found in page 13 of this Fee Schedule. Please note the price of elective units vary. All unit prices are detailed in this FEE Schedule. Not all programs are available at all locations, please check the website for more information.

MUSIC

If you're passionate about songwriting, beats, and cool production you are going to love the Associate Degree of Songwriting and Music Production. Brand new for SAE, this collaborative course provides a unique, hands-on, immersive experience to guide you through each level of songwriting and music production.

At SAE you won't find yourself in a lecture with 300 people or even in a traditional lecture at all. You'll be in a studio environment - learning contemporary songwriting strategies, music production technology and skills, nuances of performance, and recording techniques, as well as creating music for other media like games, film/screen and for live performance. Your growth and development will be assessed through the completion of industry-based projects, not theoretically based essays. These projects will contribute to your personal song/music portfolio that you'll be able to showcase to the music industry.

In preparation for an industry that commands agility and adaptability, you'll cut your creative teeth on songwriting and music production. As your skills develop and you work on more dynamic projects, you'll apply your capabilities across disciplines (e.g. with games/film students), and you could find yourself collaborating with fellow SAE students across Australia as well as SAE's global network. Ultimately, this is all about a qualification that prepares you for your career. There is work placement as part of your course, to provide practical experience and help build your network. We'll also equip you with employability skills, giving you professional strategies in communication and confident self-promotion. Once complete, you'll have the songwriting and music production tools you need to mix it with the best.

Associate Degree Of Audio	46
Bachelor of Audio (Studio Production)	47
Bachelor of Audio (Post Production)	48
Diploma of Graphic Design	50
Associate Degree Of Design	51
Bachelor of Design (Web Design)	52
Bachelor of Design (Graphic Design)	53
Diploma of Film	55
Associate Degree Of Film	56
Bachelor of Film (Production)	57
Bachelor of Film (Post-Production)	57
Diploma of Augmented and Virtual Reality	59
Diploma of Game Development	60
Associate Degree of Games Development	61
Bachelor of Games Development (Games Design)	62
Bachelor of Games Development (Games Programming)	62
Diploma of Music Production	65
Associate Degree of Songwriting And Music Production	66
Bachelor of Songwriting And Music Production	67
Supplementary Electives For Bachelor Courses	68

ANIMATION:

Animation is pure imagination. Few industries allow you to create what has never been seen before, which is cool. But it's also a profession where technical expertise and application is as important as raw talent, and this is where we come in. Our courses are all about building your character and credentials by giving you hands-on experience in 3D modelling, rigging, design, textures, lighting, rendering and compositing. Throughout your course, you'll explore each aspect of animation in detail with the guidance of expert teachers. You'll be working on cutting-edge software like Autodesk Maya, Autodesk 3D MAX, ToonBoom Harmony, Substance Painter, Unreal Engine 4, Unity, SideFX Houdini, Foundry NukeX, Pixologic ZBrush and Adobe Creative Suite to help bring your ideas to life, as well as learn collaborative and project management skills – all within a world-class, studio-based learning environment.

COMMENCED BEFORE TRIMESTER 2 2021

Diploma Of 3D Animation Production

Qualification	Diploma of 3D Animation Production
Specialisation Course Code	NT5AN
Duration	2 trimesters minimum
Indicative Total Course Fees*	Domestic: \$23,708 International: \$28,040
Number of Units to Complete	8
Total Credit Points	80
CRICOS Code	102826J 094747A
Sector	Higher Education (HE)
Intakes Offered	07 February 2022 30 May 2022 19 September 2022
Delivery Mode	on campus
Payment Options	Tuition fee payment options for Domestic students include: Study Now – Pay Later (FEE-HELP) or Trimester Instalments Tuition fee payment options for International students include: Trimester Instalments

Unit Code	Unit Name	Trimester	Credit Points	EFTSL**	Domestic Student Unit Fee	International Student Unit Fee
CIM105	Employability skills in the Creative Industries	1	0	0	\$0.00	\$0.00
ANM110	Animation Studies and Practice	1	10	0.125	\$3,453.00	\$4,085.00
ANI170	Drawing for Animation	1	10	0.125	\$3,453.00	\$4,085.00
ANI171	Foundations of Computer Graphics	1	10	0.125	\$3,453.00	\$4,085.00
ANI172	Introduction to Animation	1	10	0.125	\$3,453.00	\$4,085.00
ANI173	Intermediate Computer Graphics	2	10	0.125	\$2,474.00	\$2,925.00
ANI180	Animation Production	2	20	0.25	\$4,948.00	\$5,850.00
CIM151	Contemporary Industrial Practices	2	10	0.125	\$2,474.00	\$2,925.00

*The Indicative Total Course Fee reflects that students are charged fees on a per unit basis and the fee for a unit may increase from time to time, the indicative Total Course Fee does not take into account personal circumstances such as RPL, credit, repeats or changed electives.

**EFTSL means Equivalent Full Time Study Load. An EFTSL value for a unit of study represents the study load for that unit. A study load for a unit of study is expressed as a proportion of the standard study load for one full-time year of the course of study of which the unit forms part, as determined by SAE. The aggregated EFTSL values for units of study undertaken by a full-time student doing a standard study load for one year of a course of study normally add up to 1.0. A standard study load means the student studies at a pace that enables the student to complete the course in the standard number of years on a full-time basis. Students may apply to undertake specific units from other SAE degree programs to fulfil the elective requirements. Additional electives can be found in page 13 of this Fee Schedule. Please note the price of elective units vary. All unit prices are detailed in this FEE Schedule. Not all programs are available at all locations, please check the website for more information.

ARTS

Our Audio courses are an immersive, hands-on experience that covers every possible level of studio, post- and live production, using cutting-edge equipment like Neve, SSL, and Audient consoles, while gaining proficiencies on software including Pro Tools, Logic Pro X, and Ableton Live. Your growth and development will be assessed through the completion of industry-based projects, not theoretically based essays, enabling you to build up a body of work and portfolio to share with potential employers. In preparation for an industry that commands agility and adaptability, you'll cut your creative teeth on projects initially in partnership with your course peers. As your skills develop and you work on more dynamic projects, you'll apply your capabilities to cross-discipline projects. Ultimately, this is all about a qualification that will expand your career. There is work placement as part of your course, to provide practical experience and help build your network. We'll also equip you with employability skills, giving you professional strategies in communication and self-promotion.

Elective Study	Elective Study	6	10	0.125	\$2,474.00	\$2,925.00

*The Indicative Total Course Fee reflects that students are charged fees on a per unit basis and the fee for a unit may increase from time to time, the indicative Total Course Fee does not take into account personal circumstances such as RPL, credit, repeats or changed electives.

**EFTSL means Equivalent Full Time Study Load. An EFTSL value for a unit of study represents the study load for that unit. A study load for a unit of study is expressed as a proportion of the standard study load for one full-time year of the course of study of which the unit forms part, as determined by SAE. The aggregated EFTSL values for units of study undertaken by a full-time student doing a standard study load for one year of a course of study normally add up to 1.0. A standard study load means the student studies at a pace that enables the student to complete the course in the standard number of years on a full-time basis. Students may apply to undertake specific units from other SAE degree programs to fulfil the elective requirements. Additional electives can be found in page 13 of this Fee Schedule. Please note the price of elective units vary. All unit prices are detailed in this FEE Schedule. Not all programs are available at all locations, please check the website for more information.

DESIGN.

Our Design courses are much more than teaching visual aesthetics, but rather, providing you with a detailed understanding and hands-on experience of the role of design in the contemporary world. You'll explore branding and identity design, online and print design, digital image-making and user-centred design. You'll create targeted designs with a particular audience in mind, and develop the skills to come up with creative solutions to complex problems in almost any context.

At SAE you won't find yourself in a lecture with 300 people or even in a traditional lecture at all. You'll be in a studio environment with the latest Adobe Creative Suite. Your growth and development will be assessed holistically based on your engagement with and completion of industry style projects and you'll learn to apply a strategic, entrepreneurial eye to your clients' needs. You will build up a diverse portfolio of work to share with potential employers and clients. In preparation for an industry that demands agility and adaptability, you'll cut your creative teeth on projects in partnership with your course peers. As your skills develop you will work on more future-focused and collaborative projects, applying your capabilities to cross-disciplinary projects. We'll also equip you with employability skills, giving you professional strategies in communication and self-promotion.

KING FLO
Lighting Solutions

SPIDER DOLLY

Our Film courses provide the practical experience and technical knowledge needed to launch yourself into the world of motion pictures. Starting with the fundamentals and rolling through to the finer, more complex aspects of cinematography, you'll acquire a very particular set of skills. Choose to specialise in either Production where the focus is on directing and producing or Post-Production where you'll refine your skills in editing, composing and colour grading. You'll be in a studio environment using industry-standard equipment like 4K Red, Sony and Canon cameras, DaVinci Resolve colour grading software, Adobe Premiere Pro, and Adobe Creative Cloud. Your growth and development will be assessed through the completion of industry-based projects, not theoretical based essays, enabling you to build up a body of work and portfolio to share with potential employers. In preparation for an industry that commands agility and adaptability, you'll cut your creative teeth on projects initially in partnership with your course peers. As your skills develop and you work on more dynamic projects, you'll apply your capabilities to cross-discipline projects. At SAE, you'll see your ideas come to life as you prepare for a big future in front of you behind the lens.

A study load for a unit of study is expressed as a proportion of the standard study load for one full-time year of the course of study of which the unit forms part, as determined by SAE. The aggregated EFTSL values for units of study undertaken by a full-time student doing a standard study load for one year of a course of study normally add up to 1.0. A standard study load means the student studies at a pace that enables the student to complete the course in the standard number of years on a full-time basis. Students may apply to undertake specific units from other SAE degree programs to fulfil the elective requirements. Additional electives can be found in page 13 of this Fee Schedule. Please note the price of elective units vary. All unit prices are detailed in this FEE Schedule. Not all programs are available at all locations, please check the website for more information.

Associate Degree of Film

Qualification	Associate Degree of Film
Specialisation Course Code	FF6E3
Duration	4 trimesters minimum
Indicative Total Course Fees*	Domestic: \$43,500 International: \$51,440
Number of Units to Complete	16
Total Credit Points	160

GAMES

Games have the potential to change the world, and we can give you the skills to help change yours. Our bachelor starts at the base level and builds your expertise in programming and design. At SAE you won't find yourself in a lecture with 300 people or even in a traditional lecture at all. You'll be in a studio environment using industry-standard software like Unreal Engine 4, Unity3D, Autodesk 3D Studio Max and Maya, developing for technologies such as Oculus Rift, HTC Vive, Android, and iOS. You'll also learn to speak how the professionals do with expert lecturers guiding you in languages such as C++ and C#. Your growth and development will be assessed through the completion of industry-based projects, not theoretical based essays. This will ultimately help you build up a body of work and portfolio to share with potential employers or first client. In preparation for an industry that commands agility and adaptability, you'll cut your creative teeth on projects initially in partnership with your course peers. As your skills develop and you work on more dynamic projects, you'll apply your capabilities to cross-discipline projects. Your epic adventure in gaming starts here.

MUSIC!

If you're passionate about songwriting, beats, and cool production you are going to love the Associate Degree of Songwriting and Music Production. Brand new for SAE, this collaborative course provides a unique, hands-on, immersive experience to guide you through each level of songwriting and music production.

At SAE you won't find yourself in a lecture with 300 people or even in a traditional lecture at all. You'll be in a studio environment - learning contemporary songwriting strategies, music production technology and skills, nuances of performance, and recording techniques, as well as creating music for other media like games, film/screen and for live performance. Your growth and development will be assessed through the completion of industry-based projects, not theoretically based essays. These projects will contribute to your personal song/music portfolio that you'll be able to showcase to the music industry.

In preparation for an industry that commands agility and adaptability, you'll cut your creative teeth on songwriting and music production. As your skills develop and you work on more dynamic projects, you'll apply your capabilities across disciplines (e.g. with games/film students), and you could find yourself collaborating with fellow SAE students across Australia as well as SAE's global network. Ultimately, this is all about a qualification that prepares you for your career. There is work placement as part of your course, to provide practical experience and help build your network. We'll also equip you with employability skills, giving you professional strategies in communication and confident self-promotion. Once complete, you'll have the songwriting and music production tools you need to mix it with the best.

CIM210	Media Studies	4	10	0.125	\$2,474.00	\$2,925.00

*The Indicative Total Course Fee reflects that students are charged fees on a per unit basis and the fee for a unit may increase from time to time, the indicative Total Course Fee does not take into account personal circumstances such as RPL, credit, repeats or changed electives.

**EFTSL means Equivalent Full Time Study Load. An EFTSL value for a unit of study represents the study load for that unit. A study load for a unit of study is expressed as a proportion of the standard study load for one full-time year of the course of study of which the unit forms part, as determined by SAE. The aggregated EFTSL values for units of study undertaken by a full-time student doing a standard study load for one year of a course of study normally add up to 1.0. A standard study load means the student studies at a pace that enables the student to complete the course in the standard number of years on a full-time basis. Students may apply to undertake specific units from other SAE degree programs to fulfil the elective requirements. Additional electives can be found in page 13 of this Fee Schedule. Please note the price of elective units vary. All unit prices are detailed in this FEE Schedule. Not all programs are available at all locations, please check the website for more information.

Bachelor of Songwriting & Music Production

Qualification	Bachelor of Songwriting and Music Production

POSTGRADUATE COURSES

Postgraduate Courses

Content

Graduate Certificate of Creative Industries	72
Graduate Diploma of Creative Industries	73
Master of Creative Industries	74
Graduate Certificate in Emerging Technologies	76

Study Periods

The SAE academic year consists of three trimesters with an intake each trimester and one census date each trimester. Included in this booklet is fee information for higher education courses. Courses may not be available at all campuses; please refer to www.sae.edu.au for campuses offerings for each course. For further information on course

Financial penalties will apply to students who withdraw from their course after the trimester census date.

Trimester	Commencement	Census	Completion
Trimester 1	07 February 2022	25 February 2022	06 May 2022
Trimester 1.1	07 February 2022	16 February 2022	25 March 2022
Trimester 1.2	28 March 2022	06 April 2022	13 May 2022
Trimester 2	30 May 2022	17 June 2022	26 August 2022
Trimester 2.1	30 May 2022	08 June 2022	15 July 2022
Trimester 2.2	18 July 2022	27 July 2022	02 September 2022
Trimester 3	19 September 2022	07 October 2022	16 December 2022
Trimester 3.1	19 September 2022	28 September 2022	04 November 2022
Trimester 3.2	07 November 2022	16 November 2022	23 December 2022

Postgraduate Courses

Whether you've worked within the creative industries for years, hold a creative media qualification and seeking to deepen your knowledge to pursue greater career prospects, or want to refine and explore a specific creative media project, SAE's postgraduate courses are the next step to defining your creative niche.

These qualifications are what you need to move your career forward and enhance your employment prospects. It presents the perfect platform to refine and test your big ideas and existing projects with peers at the same level, before launching to the industry.

All ideas need a place to grow and people to nurture them, and our reputation as the leading global specialist in creative media education comes from 40 years of pioneering creative minds like yours.

Graduate Certificate In Creative Industries

*The Indicative Total Course Fee reflects that students are charged fees on a per unit basis and the fee for a unit may increase from time to time, the indicative Total Course Fee does not take into account personal circumstances such as RPL, credit, repeats or changed electives.

**EFTSL means Equivalent Full Time Study Load. An EFTSL value for a unit of study represents the study load for that unit. A study load for a unit of study is expressed as a proportion of the standard study load for one full-time year of the course of study of which the unit forms part, as determined by SAE. The aggregated EFTSL values for units of study undertaken by a full-time student doing a standard study load for one year of a course of study normally add up to 1.0. A standard study load means the student studies at a pace that enables the student to complete the course in the standard number of years on a full-time basis. Students may apply to undertake specific units from other SAE degree programs to fulfil the elective requirements. Additional electives can be found in page 13 of this Fee Schedule. Please note the price of elective units vary. All unit prices are detailed in this FEE Schedule. Not all programs are available at all locations, please check the website for more information.

VET COURSES:

For students who commenced before / trimester 2 2021

VET Courses

For students who commenced before / trimester 1 2022

Contents

CUA51015 Diploma of Screen and Media Creative Industries	78
CUA30915 Certificate III in Music Industry	80
CUA50815 Diploma of Music Industry - Electronic Music Production	81
CUA50815 Diploma of Music Industry - Studio Production	83

Study Periods

The SAE VET academic year consists of six trimesters with one intakes per year and one census date each trimester. Included in this booklet is fee information for VET courses. Courses may not be available at all campuses; please refer to www.sae.edu.au for campuses offering this course.

Financial penalties will apply to students who withdraw from their course after the trimester census date.

Trimester	Commencement	Census	Completion
Trimester 1.1	07 February 2022	16 February 2022	25 March 2022
Trimester 1.2	28 March 2022	06 April 2022	13 May 2022
Trimester 2.1	30 May 2022	08 June 2022	15 July 2022
Trimester 2.2	18 July 2022	27 July 2022	02 September 2022
Trimester 3.1	19 September 2022	28 September 2022	04 November 2022
Trimester 3.2	07 November 2022	16 November 2022	23 December 2022

CUA51015 Diploma of Screen & Media

Unit Code	Course Competencies
CUAIND502	Maintain and apply creative arts industry knowledge
CUAANM503	Design animation and digital visual effects
CUAANM303	Create 3D digital models
CUASOU504	Produce sound recordings
CUASOU407	Edit sound
BSBDES402	Interpret and respond to a design brief
CUADIG402	Design user interfaces
CUAWRT502	Develop storylines and treatments
CUAANM403	Create titles for screen productions
BSBCRT501	Originate and develop concepts
CUADIG504	Design games
CUAMCP501	Compose music using electronic media
CUAMCP402	Develop techniques for composing music
BSBCRT402	Collaborate in a creative process
BSBPMG522	Undertake project work

CUA30915 Certificate III In Music Industry

Want to become a DJ? Learn the skills to create beats and master your sound? This course covers the essentials of audio engineering and electronic music production (EMP). Develop the skills and creative principles needed to write/produce your own professional-quality compositions.

Qualification	CUA30915 Certificate III in Music Industry
Specialisation Course Code	AU3MI Certificate III in Music Industry
Duration	2 trimesters minimum
Indicative Total Course Fees*	Domestic: \$4,410
Number of Units to Complete	N/A
Total Credit Points	N/A

*The Indicative Total Course Fee reflects that students are charged fees on a per unit basis and the fee for a unit may increase from time to time, the indicative Total Course Fee does not take into account personal circumstances such as RPL, credit, repeats or changed electives.

**EFTSL means Equivalent Full Time Study Load. An EFTSL value for a unit of study represents the study load for that unit. A study load for a unit of study is expressed as a proportion of the standard study load for one full-time year of the course of study of which the unit forms part, as determined by SAE. The aggregated EFTSL values for units of study undertaken by a full-time student doing a standard study load for one year of a course of study normally add up to 1.0. A standard study load means the student studies at a pace that enables the student to complete the course in the standard number of years on a full-time basis. Students may apply to undertake specific units from other SAE degree programs to fulfil the elective requirements. Additional electives can be found in page 13 of this Fee Schedule. Please note the price of elective units vary. All unit prices are detailed in this FEE Schedule. Not all programs are available at all locations, please check the website for more information.

Unit Code	Course Competencies
CUAANM313	Create 3D digital models
CUAANM513	Design specifications for animation and digital visual effects
CUASOU504	Produce sound recordings
CUASOU417	Edit sound
CUAWRT512	Develop storylines and treatments
CUAANM413	Create titles for screen productions
CUADIG514	Design games
CUADES412	Interpret and respond to a design brief
CUADIG412	Design user interfaces
CUAIND512	Enhance professional practice using creative arts industry knowledge
CUAPPR515	Establish and maintain safe creative practice
CUASOU513	Develop sound designs
CUASOU505	Implement sound designs
CUAIND412	Provide freelance services
CUAPPR411	Realise a creative project

CUA30915 Certificate III In Music Industry

Want to become a DJ? Learn the skills to create beats and master your sound? This course covers the essentials of audio engineering and electronic music production (EMP). Develop the skills and creative principles needed to write/produce your own professional-quality compositions.

Qualification	CUA30915 Certificate III in Music Industry
Specialisation Course Code	AU3MI Certificate III in Music Industry
Duration	2 trimesters minimum
Indicative Total Course Fees*	Domestic: \$4,410
Number of Units to Complete	N/A
Total Credit Points	N/A
CRICOS Code	N/A
Sector	Vocational Education and Training (VET)
Intakes Offered	Contact Campus for Details
Delivery Mode	on campus
Payment Options	Tuition fee payment options for Domestic students include: Trimester Instalments

Unit Code	Unit Name	Trimester	Domestic Student Unit Fee
EMP111	DAW Operation	1	\$735.00
EMP121	Sound Design Synthesis & Sampling	1	\$735.00
EMP131	Production 1	1	\$735.00
EMP211	Signal Processing & Mix Down	2	\$735.00
EMP221	Electronic Music Production Techniques	2	\$735.00
EMP231	Production 2	2	\$735.00

Unit Code	Course Competencies
BSBWHS201	Contribute to Health and safety of self and others
CUACMP301	Implement copyright arrangements
CUAIND303	Work effectively in the music industry
CUAMLT302	Apply knowledge of style and genre to music industry practice
CUAMPF202	Incorporate music technology into performance
CUAMCP301	Compose simple songs or musical pieces
CUAMCP303	Develop simple musical pieces using electronic media
CUAMPF301	Develop technical skills in performance
CUASOU202	Perform basic sound editing
CUAMPF304	Make a music demo
CUASOU311	Mix music in a studio environment

*The Indicative Total Course Fee reflects that students are charged fees on a per unit basis and the fee for a unit may increase from time to time, the indicative Total Course Fee does not take into account personal circumstances such as RPL, credit, repeats or changed electives.
